Universitat Autònoma de Barcelona, Spain

Dear Sirs,

It has come to my attention that in your University it has been proposed the creation of "International Center for Animal Law and Policy" (ICALP) from Prof. Candela. I strongly support the creation of such a Center and commend the University for moving in that direction. With the hosting of the Global Animal Law Conference last summer, your University is already known for its leadership in the area of animal law. The creation of a Center will build upon this, creating a scholarly focal point for all of us working in this area. Professor Candela has proven her dedication to this area of law and the creation of a Center will allow a more visible platform for the world to see her leadership in the academic world of Animal Law.

The creation of the Center could reach the target for your University to become an international hub on the topic, facing with extraordinary capability the difficult issue of the relation between human being and animals in a legal framework, with the special focus on the harmonization of a common core of legal rules in Europe and in the world in the topic.

Thanks you for your consideration of this important proposal.

Prof. Riccardo Cardilli
Director of
Center of Legal Studies for Latin-America
University of Rome "Tor Vergata"
